Sectoral indices and gainers/losers across 1D, 1W, 1M, 3M timeframes with visual heat maps.

News & Updates

Latest announcements, corporate results, and FII-DII activity — all in one live feed.

AI Analytics

Pattern recognition, strategy backtesting, and AI-scored trade setups across NSE.

My Watchlist

Track favourite stocks with live prices, smart alerts, and AI conviction scores.

DASHBOARD

Five Engines. *One Conviction.*

Each engine is a specialist. ApexAI synthesizes them all into a single trade signal.

01

Oracle Lens

Financial health scoring, balance sheet deep-dive, and automated red flag detection.

02

DeepSightAI

Real-time sentiment analysis, earnings surprise prediction, and institutional tracking.

03

TechEngine

SMC structure, order blocks, EMA confluence, and Renko analysis for precise entries.

04

NiftyOITech

Live OI centroid tracking, centroid flip detection, and DMT trap zone alerts.

05

ApexAI

Master orchestrator — synthesizes all four engines into a single conviction-scored recommendation.
